

College of Science, Bachelor of Science, Psychology Major Checksheet
For Students Graduating in 2009 or Later
(Revised Sept. 2007)

In addition to university core courses, Psychology majors are required to take 28 semester hours within the department (6 of which will satisfy the Core Area 3 requirements), 15 semester hours in other departments specified below, and must satisfy the foreign language requirement. Specific requirements are indicated below. Please see the Psychology Majors Handbook for explanations of the University Core requirements, foreign language requirement, and measures of satisfactory progress toward the B.S. in Psychology.
